Attachment #2

- Certified True Copies; Letters sent to all sheriffs in 72 counties of Wisconsin, March 2024

You admitted to a few that there was no way you could sign a “Pledge of Commitment” due to your past tense actions, and absolutely unable to sign such a document due to self-admittance of multiple felonies that some involved real injured parties. Your deceitful newspaper notice[s] by you have been rebutted-[true and correct copies attached] showing nullification to your attempt to “settle a county.” Therefore, letters have been sent to all the Sheriffs through-out the state-[true and correct copy attached], along with the same to the Governor and Secretary of State-[true and correct copies attached] to clearly reveal you are NOT who you say you are. Furthermore, affidavits, etc. have already been sent to you supporting the rebuttal[s], that you have chosen to ignore but admit to having received while you were in jail, validating your falsification[s] in your opinionated version of the Board of Review by revoking signatures in such matter and separating you permanently from this proper and lawfull Wisconsin General Jural Assembly started on April 16, 2023.

Through your current confabulation, correspondence and non-correspondence=non-response[s], these verified self-evident actions have defamed and harmed the proper and lawfull Wisconsin General Jural Assembly started on April 16, 2023, and including others outside both named and unnamed. Therefore, let it be known, your past-tense self-admitted amoral actions, statements both written and spoken in the public purview have been witnessed=certified i.e. local court cases. This clear past and present display of dishonorable unmoral conduct is “Corruption of the best is worst”, “A deception practiced upon others does not give cause of action to another [you]” and “Gross negligence is equivalent to fraud”, therefore “Once a fraud, always a fraud.”

Any claim[s] on your part in any matters done by-with the proper and lawfull Wisconsin General Jural Assembly started on April 16, 2023, that you are obviously no longer part of, going forward from here are delusional-

unsubstantiated deeds and will result in reposting the attached Statement of Facts, dated March 17, 2024, and this email, showing your insidious nature and addressed in an appropriate manner lawfully to the fullest extent.
